

Placental nomination overlap
Mapped, currently protein-coding genes

Gong 2021
S5 + S6

Bradley 2020
Figure 3

Gong: 70 coding genes (69 from S5; ERVH48-1 from S6). Bradley: 10 candidates.
Gong supports 16 of 19 prior nominations, including 8 of the 9 retained genes.
Source membership is nomination evidence, not proof of tumor antigenicity.
